KELLY'S CREGO ASTERS

KELLY GARDENS

Spokane, Wash.

This new Year Book, our silent salesman, comes to you offering at growers' prices, the stock of one of the largest plant producing establishments in the Northwest—offering something for every garden, everything for some gardens. Years of experience in packing plants has resulted in methods enabling us to guarantee their safe arrival, and in the years of our business career our products have found their way into every N. W. state. For over 36 years we have been in the plant business in eastern Wash. and the business today is under the direct control of the founder. Our guarantee is an asset with us and a safeguard to you, giving absolute security to mail order buyers. We promise you as fine stock as can be grown, a large assortment and good service and we believe therefore, that this catalogue, which we hope will be found pleasing and helpful, is entitled to the consideration of all buyers.

TERMS, GUARANTEE AND HOW WE SHIP AND PACK.

HOW WE PACK

No firm in the country packs lighter or more securely than we; we have this department down to a science; we promise liberal count and careful labeling; our plants do not shift in box.

DAMAGE IN TRANSIT

Important—Any claims for damage in transit must be made promptly to express or postal delivery agent at destination, as he can examine shipment and verify claim.

SATISFACTION PROMISED

In filling your orders we shall do our very best to make every shipment satisfactory and profitable to you; in any case where we fail to do this, please report to us within five days (not after a while) for adjustment.

TERMS

Our terms are cash with order. Stock will be shipped C. O. D. if one-half of amount is remitted with order. Money may be sent at our risk by Post Office Order, Express Money Order, Bank Draft, Money in Registered Letter. We will be responsible for the safe carriage of money sent us by any of these ways, and, if lost, we will give full value. Stamps accepted for amounts less than \$1.00. liberal count and careful labeling.

OUR GUARANTEE

All goods are guaranteed to reach you in good condition; mistakes, if made, will be promptly rectified. Accept shipment, examine and count on receipt and notify us at once should there be any errors, and the carriers as well, if any damaged stock. This guarantee not good unless above requirements are complied with. We do not guarantee continued growth. Remember a tree, shrub or plant is a living organism, as much as a cow, horse or man. It breathes, drinks and feeds, and is liable to attacks of disease and insects. It is impossible for us to guarantee or to be responsible for stock after delivery to our customers in good condition.

NON-WARRANTY

While we hold ourselves in readiness, on proper proof, to replace free of charge all stock that may prove untrue to label, or refund the amount paid, we give no warranty expressed or implied as to description, quality, productiveness or any other matter of any stock, seeds, bulbs or plants we sell.

TOMATO PLANTS

Doz. Finest Transplanted 30c

KELLY'S EARLIANA is the best tomato for the Northwest we have tested every thing of promise to date, Kelly's Earliana is from selected fruit matured in the cool north.

DWARF CHAMPION or TREE
A strong sturdy plant that produces solid and handsome fruit, its quality is unexcelled. It is later than our Earliana.

BONNY BEST Later than the Earliana. Attractive color, globular and solid. This plant is used almost exclusively for forcing in hot houses. We can supply plants in January.

Our Tomato plants are not just ordinary plants. We begin by carefully producing our own seed in our own fields. Careful selection of fruit for seed purposes only has resulted to a very marked degree, earliness, shipping qualities and increased production. Our methods of propagation, due to 35 years of persistent application and with our modern equipment and facilities has rendered a service for greater quality production, unequaled by any propagators anywhere.

ASPARAGUS

A crop that is never overproduced.

Cultural Directions on request.

The grower finds this vegetable about the first one that always finds ready sale at profitable prices, and the earliest income of his "out-in-the-open" crops. In addition it is so easily harvested and prepared for market that indeed it is a most acceptable crop. No garden, whether it be for the market or the home, is really complete without a bed of good roots.

2—PALMETTO—The best acquisition to our comparatively few varieties.

3—ARGENTEUIL—This comparatively new variety is becoming very popular.

371—WASHINGTON—Pedigreed. The new rust resistant variety. Our strain from the Department of Agriculture of the U. S. tested seeds.

Not Prepaid.

VEGETABLE SEEDS EXTRA SPECIAL

We are fully convinced that our unusual high quality products are in a large measure the result of our own growing of seed of certain varieties. Therefore, we began several years ago to produce seed of important money crops and have succeeded in harvesting not only enough for our plant business and garden operations but can offer limited quantities to our customers. Seeds produced by this careful selection necessarily cost more than ordinary field seeds, but are worth it.

POTTED PLANTS**For Frosty and Cold Locations**

The positively sure method of success in maturing **TOMATOES, EGG PLANT** and **PEPPERS** in the short season localities so common in these northern latitudes is to set **KELLY'S INDIVIDUALS**. Thousands upon thousands of the **KELLY INDIVIDUALS** containing these semi-tropical plants are annually doing their duty in maturing their fruit under unfavorable conditions. The whole secret is in the strong thrifty plant, well hardened, growing in a specially prepared soil and the plant and roots are not in the least disturbed when resetting takes place. With this form and method, plants that are perishable by frost or inclement weather, can be held and easily protected while growing all the time, until conditions are favorable.

The additional cost of the **KELLY INDIVIDUALS** is a mere trifle when compared with the positiveness of the resultant crop.

(Description, variety and prices will be found in the classified offerings throughout the catalog.)

DATURA

Large branching plants, producing very large, handsome, double or single, trumpet shaped blossoms of exquisite fragrance. Excellent for late summer and autumn flowering.

Seed may be sown outdoors after danger of frost is over, but for early blooming, sow in hotbed and transplant about three feet apart each way. Roots can be kept all winter in cellars. Tender annual; three feet high.

WRIGHT—Pure white at the center, shaded into lilac and blue; magnificent large single flowers. In warm latitudes can be continued as a perennial. Pkt., 10c.

DELPHINIUM (Larkspur)

Quick growing, very free flowering annual, producing erect spikes of beautiful flowers of various colors. Sow in early spring, thinly, in shallow drills. Thin out after well up, to 10 to 12 inches apart. This makes a pleasing display and is very satisfactory.

CHLORANTHA, FL. PL. (HUMILIS FLAVA)—Large, usually double yellow, richly scented. Pkt., 10c; oz., \$1.25.

DELPHINIUM, DWARF DOUBLE MIXED—Of rather dwarf growth, 10 to 11 inches high. The branching spikes are thickly set with double flowers of many distinct colors. Pkt., 10c; oz., \$1.00.

DELPHINIUM, TALL DOUBLE MIXED—Grow two feet in height. The tall, rock-like spikes are profusely covered with full double flowers of various colors. Pkt., 10c; oz., \$1.00.

MIXED—The above varieties. Pkt., 10c; oz., 85c.

DIANTHUS OR GARDEN PINK

A magnificent genus of plants, annuals and perennials, embracing some of the most popular flowers in cultivation, producing a great variety of brilliant colors and profusion of bloom. The Chinese and Japanese varieties bloom the first season, the same as hardy annuals; height, 1 foot. The hardy perennial varieties are very fragrant and of easy culture for the garden or greenhouse.

Many of the flowers have fringed edges. The coloring of all is beautiful, varied and unique. Pinks are flowers for everybody; they will thrive almost everywhere, and they remain in bloom a length of time.

ROYAL PINKS—These very large, single flowers afford a wide range of color. Petals deeply cut and fringed and flowers in splendid shades from blood-red to carmine pink, even white. Plants dwarf and very free flowering. Pkt., 10c; oz., \$1.00.

SINGLE MIXED—A splendid mixture of single flowers of the best shades and beautifully marked. Plants dwarf; very free flowering. Pkt., 10c; oz., 85c.

DOUBLE BRILLIANT MAROON—A beautiful variety, easily cultivated; rich, deep red flowers. Pkt., 10c; oz., \$1.00.

DOUBLE DARK PURPLE—An attractive and particularly useful color in pinks. The flowers are double, of large size, fine form and are suitable for cutting. Pkt., 10c; oz., \$1.00.

DOUBLE DIADEM MIXED (HEDDEWIG'S)—Very regular, double and all tints from crimson purple to deep black purple. Pkt., 10c; oz., \$1.00.

DOUBLE JAPAN MIXED (CHINENSIS INCINIATUS)—The flowers are rich in hue; very double, deep fringed petals. Colors vary from white to rose, lilac, carmine, crimson, scarlet, purple, brown and almost black, spotted and striped. Packet, 10c; oz., 85c.

DIANTHUS OR GARDEN PINK

DOUBLE CHINA MIXED (CHINENSIS)—White and dark crimson, also white tipped light purple and shades of red with darker blotchings. A mixture of double pinks unsurpassed in variety of brilliant coloring and marking. Pkt., 10c; oz., 85c.

SNOWDRIFT—Clear white, double and fully as large as the popular Marguerite Carnation; desirable for cutting. Pkt., 10c; oz., \$1.00.

DIGITALIS (Foxglove)

Hardy perennial plants, useful as the background of the shrubbery border. They attain a height of 2 to 3 feet. Rich, loamy soil and partial shade suit them best.

FINE MIXED—Pkt., 10c; oz., 85c.

DOLICHOS (Hyacinth Bean)

A showy annual climber, grows luxuriantly about 10 feet high, branching out well from the bottom, and is clothed with dense foliage; insect proof, and forms excellent screens as well as being exceedingly ornamental. The sweet pea-like blossoms are borne in long, wistaria-like clusters, often a foot in length, which are followed by exceedingly ornamental seed pods. Pkt., 10c; oz., 75c.

ECHEVERIA (Hen and Chickens)

Four inches. The rosette-like plants are largely used in parks and cemeteries for carpet bedding. Seeds are very small. Pkt., 10c.

ESCHSCHOLTZIA (California Poppy)

The state flower of California. A genus of the Poppy family, fully as valuable as the common Poppy for garden ornamentation, as it blooms almost continually throughout the season. Hardy annuals; height, one foot.

MIXED COLORS—White, yellow and orange. Pkt., 10c; oz., 85c.

EVERLASTINGS

A group of annual plants whose flowers are cut when nearly at full bloom. Will grow in any common garden soil years thereafter. They will thrive in any sunny garden; need good soil.

SPECIAL MIXTURE—A single packet will give in abundance a great variety of the most attractive Everlasting Flowers. Pkt., 10c.

EUPHORBIA (Snow on the Mountain)

Hardy annual growing about two feet high. Useful in shrubbery borders.

VAREGATA—Leaves veined and margined with white. Pkt., 10c.

DUSTY MILLER—Silver foliage, delicately cut. Height, 1½ feet. Excellent for vases or edgings of beds. Pkt., 10c.

GAILLARDIA

Desirable bedding plants and excellent for cutting. Flowers are of brilliant and showy color. Pkt., 10c.

GERANIUMS

These popular plants are most easily raised from seed, and if started early will produce flowering plants the first summer. Start in the house and transplant to the garden as soon as the weather is warm. Pkt., 10c.

GILIA

Free-flowering, hardy annuals, one foot to eighteen inches high, with finely cut foliage and clusters of small, delicate flowers, white, blue, lilac and rose color, suitable for beds, rock-work and edgings. Sow seed in open ground.

MIXED—Pkt., 10c.

GOURDS (Ornamental)

A climber; quick-growing vines, excellent for covering arbors, walls and waste places. Gourds grow in very curious shapes and are used for house ornaments.

CALABASH OR PIPE GOURD—Pkt., 10c. **DISH CLOTH**—Like a sponge. Pkt., 10c.

DIPPER—Always useful. Pkt., 10c. **NEST EGG**—May be used as such. Pkt., 10c.

DELPHINIUM OR LARKSPUR

Tucker's Blue Ribbon Early White Corn

MR. FARMER: Last year we wrote on this page there was not enough corn grown in the South to make another crop. This statement turned out to be exactly true, and we will say, the conditions are still more critical this year than last, as we do not believe there is enough Corn grown to last until January, the time this book is issued.

NOW MR. FARMER

It is true that you are getting a good price for your Cotton, but the expense of making this crop has been very costly and feed corn is also high. **WHEN YOU GET A GOOD PRICE FOR YOUR COTTON YOU HAVE TO PAY EQUALLY IN PROPORTION FOR YOUR FEED STUFF.**

WHY NOT GROW YOUR OWN FEED?

And then grow all the Cotton you can, so you will not have to pay out all your profits for feed and also keep yourself out of debt.

THE ONLY SALVATION NOW

To grow early crops, plant Early Corn and you will harvest a crop by July 4th and this will give you feed for your stock until another crop comes in. You can plant the same ground back in another crop and grow two crops on the same land.

TUCKER'S BLUE RIBBON EARLY WHITE AND YELLOW "THE BEST"

This Corn needs no introduction. It has been planted by thousands of farmers for the past twelve years and it has given universal satisfaction. *We know it is the best early corn, our customers who have planted it know it is the best.* The two ears illustrated on this page will give you an idea of the type Corn it is. It will average two good ears to the stalk and will mature from 85 to 90 days from date of planting. Quart, 30c; 4 quarts, 75c; peck, \$1.35, prepaid. Not prepaid, peck, 85c; bushel, \$3.00.

Tucker's Blue Ribbon Early Yellow Corn

Plants in FLATS A Sure Crop

FLATS or shallow boxes, containing about sixty growing plants, is the most positive way of securing a 100% stand and a maximum crop, excepting only our POTTED INDIVIDUALS. If for any reason, you do not wish to set them out upon arrival, they may be kept for weeks, growing steadily. The plants are spaced evenly so that you may cut a 1x2x3 inch cube of soil, with each plant, preventing wilting or setback.

Hundreds of our customers prefer KELLY PLANTS in FLATS for they are sure of a crop of vegetables and flowers.

We can supply FLATS of TOMATO, CABBAGE, KALE, PEPPERS, CELERY, CAULIFLOWER, EGG PLANT, PANSY, CARNATION, KOCHIA, ASTERS, SALVIA, Etc. Note—For your choice in variety refer to classified plants throughout the catalog.)
